

SPE RESPONSE FOR CERTIFICATE OF CORRECTION

DATE : 9-27-07

Paper No.: _____

TO SPE OF : ART UNIT 2643

SUBJECT : Request for Certificate of Correction for Appl. No. 6882711 (09/454219)

Please respond to this request for a certificate of correction within 7 days.

Please review the requested changes/corrections as shown in the **COCIN** document(s) in the IFW application image. No new matter should be introduced, nor should the scope or meaning of the claims be changed.

Please complete the response (see below) and forward the completed response to scanning using document code **COCX**.

Should Request be entered? Drawings, etc.

Thank You For Your Assistance

The request for issuing the above-identified correction(s) is hereby:

Note your decision on the appropriate box.

☐ **Approved**

All changes apply.

☒ **Approved in Part**

Specify below which changes do not apply.

☐ **Denied**

State the reasons for denial below.

Comments: THE PTO DOESN'T HAVE THE PETITIONS
FILED 9/18/2000 AND 5/18/2001 AS INDICATED
BY THE APPLICANT. THEREFORE, THE CHANGES TO
THE INVENTORSHIP SHOULD NOT BE MADE

(57) **ABSTRACT**

A signal processing system which discriminates between voice signals and data signals modulated by a voiceband carrier. The signal processing system includes a voice exchange, a data exchange and a call discriminator. The voice exchange is capable of exchanging voice signals between a circuit switched network and a packet based network. The signal processing system also includes a data exchange capable of exchanging data signals modulated by a voiceband carrier on the circuit switched network with unmodulated data signal packets on the packet based network. The data exchange is performed by demodulating data signals from the circuit switched network for transmission on the packet based network, and re-modulating data signal packets from the packet based network for transmission on the circuit switched network. The call discriminator is used to selectively enable the voice exchange and data exchange.
